

ADEBIYI PRAISE ADEDOTUN

sirp2804@gmail.com | (+234) 814 6799 964 | github.com/shinobikoda | [Portfolio](#)

EDUCATION

Akure, Ondo State, Nigeria

Expected graduation: 2027

Federal University of Technology

Bachelor of Science in Computer Science

Relevant Courses: Algorithms and Data Structures, Operating Systems, Database Systems, Web Development

RELEVANT EXPERIENCE

Freelance Frontend Engineer

August 2025 - Present

Independent

Building and maintaining personal projects, contributing to open source, and delivering contract work for early-stage startups.

Frontend Engineer

June 2025-July 2025

Noblocks

Optimized Core Web Vitals and asset delivery pipelines, resulting in a 25% improvement in page load speeds and a more seamless, accessible user experience. Designed a high-conversion semantic layout that ensured 100% cross-device compatibility and a premium visual hierarchy([noblocks.xyz](#)).

Frontend Engineer

April 2025-June 2025

PineAppTech

Developed modular UI components for enterprise dashboards using Shadcn, reducing UI inconsistencies across 5+ enterprise dashboard views and cutting QA cycles by 30%. Refined State management workflows, improving dashboard responsiveness and increasing user task efficiency for data-heavy views.

Frontend Engineer

October 2024 - December 2024

E-trybe

Streamlined onboarding flows by implementing multi-step form validation for KYC and property modules, reducing user drop-off rates by an estimated 15%. Built scalable e-commerce modules that improved data accuracy and system reliability for high-traffic user registration processes.

FEATURED PROJECTS
